RECEIVED

Governor Parris N. Glendening  
State House  
Annapolis, MD 21401

MAY 14 1997

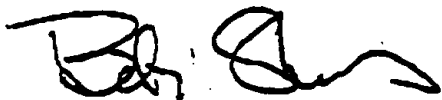

Dear Governor Glendening:

GOVERNOR'S OFFICE

It is urgent that you reverse your position on the Inter-County Connector. I am a strong supporter of your *Smart Growth* proposal: building the ICC is in direct conflict with that philosophy. As you have pointed out, the long-range interests of the State are in preserving the environment and focusing development in order to protect the environment and the more rural areas within the State. A decision to build the ICC will result in irreversible damage and it is planned to cut a nasty swath through parts of Montgomery and Prince Georges Counties.

I am a long-time Democrat and have supported you in past elections.

Sincerely,

Betsy Stephens
