GOVERNOR'S OFFICE

33101

Dear Governor Glendening,

I am writing to voice my opposition to the proposed ICC. I live "down county", but am very concerned about urban sprawl and the loss of pristine wetlands, streams and old growth forests. Building this 18 mile highway would forever alter and destroy some of Montgomery County's best remaining natural habitat, not to mention increased air pollution, noise and traffic.

I would like to see more research in the area of public transportation and HOV lanes on the beltway.

Sincerely,  
Joe P. Pucowski
